

PCdisposal Environmental Policy

i-SIGMA[®]
MEMBER

For over 20 years, we have been committed to the environment. Our longevity is a testament to our inherent practices that lead to reducing the impact of our operations, supports the ecologically sound and sustainable use of resources and protects our environment. We strive to minimize our waste generation and apply waste minimization strategies to eliminate, reuse, up-cycle and recycle whenever possible. As a certified and audited recycling facility, we apply these same strict standards to our customers' equipment received for processing. We maintain a zero landfill policy.

Great News! PCdisposal.com LLC has upgraded its certification to NAID, the National Association for Information Destruction. The same federal EPA, state and local compliance that we have adhered to for over 20 years is now backed by the worldwide leader in data security: **NAID AAA Certification for Electronic Information Destruction.**
